CPT states: The Tip of the Catheter and/or Device must terminate in the Subclavian, Brachiocephalic (innominate) or Iliac Veins, or the Superior, Inferior Vena Cava or Right Atrium.

If the Anesthesiologist places the CVP, per ASA Relative Value Guide use the following CPT codes:

36555 – patients less than 5 yrs old

36556 – patients 5 yrs of age and older
